Computer Science graduate and Apple Developer Academy learner with experience in product operations, user research, and digital product development. Skilled in translating user needs and research insights into product concepts and prototypes through iterative discovery, design, development, and testing. Collaborates with cross-functional teams to align user needs, design decisions, and technical feasibility throughout the product development process.

Work Experiences

Apple Developer Academy @Infinite Learning - **Batam, Indonesia** Feb 2026 - Present

Junior Developer (Learner)

- Collaborate with cross-functional teams through Apple's Challenge-Based Learning framework to develop 6+ validated digital product prototypes covering problem discovery, ideation, prototyping, and validation.
- Conduct user research through interviews, observations, and usability testing to identify user needs and translate research insights into product and design decisions.
- Work closely with designers and developers to align proposed solutions with user needs, design intent, and technical feasibility throughout iterative product development.

PT Dibimbing Digital Indonesia (dibimbing.id) - **Jakarta, Indonesia** Jul 2025 - Feb 2026

B2C Product Operations Intern

- Supported new bootcamp development and program improvements through market research, industry trend analysis, and student feedback while contributing to Product Requirements Documents (PRDs), timelines, budgets, and improvement plans.
- Managed end-to-end operations for 4 bootcamp programs across 3+ cohorts per program, serving 170+ students by tracking attendance, performance, and learning progress using Google Workspace and the learning management system.
- Coordinated more than 9+ Class Managers and collaborated with Mentors, Learning Design, and Talent Support teams to maintain consistent program delivery and student support.

PT Digimarly Solusi Digital (Digimarly) - **Surabaya, Indonesia** Jan 2025 - Jul 2025

Content Creator Intern

- Collaborated with the team to develop audience-focused content for 2–4 clients per month, aligning creative concepts with brand goals and social media strategy.
- Produced and edited short-form videos and visual content while maintaining consistent brand presentation across digital platforms.

Education Level

Universitas Brawijaya - **Malang, Indonesia** Aug 2022 - Jan 2026

Bachelor of Computer Science, 3.70/4.00

- Undergraduate Thesis: Evaluation of the Success of Dibimbing Learning Center E-Learning Platform Using the DeLone and McLean Model.
- Held leadership roles within the Faculty of Computer Science Student Executive Board and represented the Faculty in an international student exchange program in the Philippines, contributing to student development, academic, and organizational initiatives.
- Guided 28+ students throughout mobile application development coursework by coordinating learning materials and assignments, monitoring academic progress, and evaluating individual final Android application projects developed with Java and Kotlin.
